## DEPARTMENT OF TRANSPORTATION FEDERAL AVIATION ADMINISTRATION

Orlando International ATCT 9399 Airport Boulevard Orlando, Florida

ISSUED: May 1, 2006 EFFECTIVE: July 25, 2006

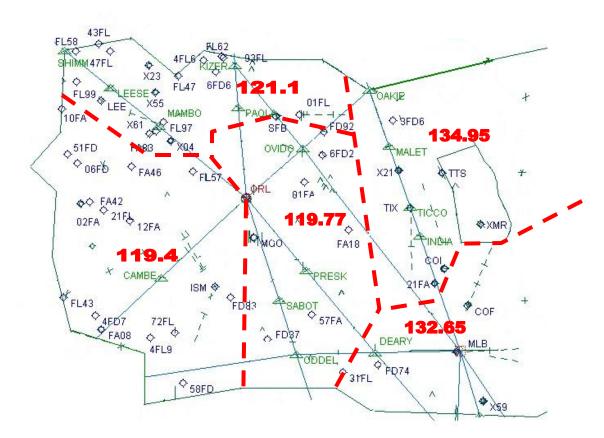

ORLANDO INTERNATIONAL ATCT LETTER TO AIRMEN NO. 06-04

SUBJECT: AIR TRAFFIC SERVICES

CANCELLATION: July 25, 2008

Orlando Terminal Radar Approach Control (MCO TRACON) will be providing radar services in the V3 area and east to the surface. This area was previously controlled by Daytona Beach Approach Control and before that Patrick Air Force Base Approach Control. TTS, XMR, TIX and MLB Air Traffic Control Towers (ATCT) will continue to provide airport Air Traffic Control services.

This drawing shows the area controlled by MCO TRACON and the existing ATCT's from the surface up to 16,000'. Utilize the frequencies list on this chart for MCO TRACON service below 6,000'.

It is our goal to provide the highest quality service to all system users. Please direct any questions to my Support Specialist, Bruce Knobbs, at (407) 852 7514.

Oringinal signed by Bryce Courtney Support Manager, MCO TRACON.
